

SE-600

8-Channel SD Video Switcher

Datavideo SE-600 is an eight input Standard Definition video switcher, with built in dual channel audio mixer.

Multi-View output display each input, as well as Program and Preview on one monitor. Other features include audio peak-meter, clock and dual logo store.

The SE-600 is designed to excel and meet your demands whether you're working in worship, education, conducting a live outside broadcast or shooting inside a production studio.

SE-600 enables you to switch seamlessly between video and audio sources and blend high-quality digital content on the fly, even without external genlock, thanks to the built in time base corrector.

FEATURES

- Six Composite Video, one DVI-D input and one DVI-I input (resolution 1024x768, 60Hz)
- Support of 16:9 and 4:3 aspect ratio
- Two Composite Video, one Y:U:V / Y/C (adapter required - not supplied) and multiple auxiliary output.
- Optional Digital Output Board: 2 x DV25 (IEEE-1394) and 2 x SDI. The flexible outputs make it easy to connect the SE-600 to external devices such as large screens, recorders, streaming and more - all at the same time
- Dual Picture-In-Picture function
- Multi-View output display each input, as well as Program & Preview on one monitor.
- Built in RS-232 & GPI control interface allows you to control external devices
- Hot key functions, allow quick access to vital functions including fade to solid colour, instant key, and more
- Dual logo store
