TWO NEW PRODUCTS
From Datavideo & Grass Valley

Datavideo HS-550

The Datavideo HS-550 is a compact, portable one box solution, built around the Datavideo SE-500 four-channel video and audio switcher, with connection for VGA or DVI equipment.

The Datavideo HS-550 also incorporates the Datavideo DN-60 removable CF card solid state recorder, Datavideo ITC-50 five-channel intercom and tally system, Datavideo Analog to Digital Converter and Datavideo DVI / VGA to Video Converter for computer presentation input.

Connections include Composite Video input / output and also includes Digital Video (DV25) output, which could be connected to an external computer or streaming solution.

One of the really unique feature of the HS-550 is that all four input sources are displayed via a single quad output, the preview display also includes a superimposed tally indicator on each input. This feature means all four inputs are displayed, as well as the program output via the integrated TLM-702 dual screen TFT monitor.

The Datavideo HS-550 is a fully integrated solution housed in a stylish and light aluminium carrying case, for easy and secure transport and storage. The HS-550 weight is 13.5Kg.

Pricing: RM17,000

Grass Valley EDIUS Neo 3

Grass Valley™ EDIUS® Neo 3 is a subset of the fully featured EDIUS 6, specifically designed for educational and institutional users that do not need all of the features of EDIUS 6. The basic usability and editing operations are the same, making it the perfect tool for simple editing and learning about EDIUS operations.

EDIUS Neo 3 offers native editing in various formats including AVCHD and DSLR movie (H.264 QuickTime), and provides a seamless real-time workflow, supporting mixing of all formats on the same timeline. EDIUS Neo 3 features real-time, multi-track, mixed format HD/ SD editing, compositing, chromakeying, titling, and Blu-ray Disc/DVD output capabilities.

EDIUS Neo 3 also features real-time playback and DV output of all effects, keyers, transitions, and titles, and can export projects to many devices including Blu-ray Disc, DVD, and SD cards.

EDIUS Neo 3 does not require any special hardware to work - it can run on a laptop as well as a desktop system, and can input/output video from any generic OHCI DV FireWire hardware.

Pricing: RM999

Both products are available at our showroom, we would like to invite potential customers to see the capabilities of the latest models of Datavideo & Grass Valley products.
